# Stakeholder Engagement

## - Client Engagement

- **Engagement Methods**

- Regular Meetings
- Client Feedback First
- Transparent Updates
- Client-Driven Decisions

- **Client-Driven Initiatives**

- Website Entry Page Redesign
- Scenario Refinement for Daily Ethics

# Risk Management

- **Risk Identification**
  - Utilize routine meetings for open communication and brainstorm
- **Risk Response**
  - Develop response strategies for each risk
  - Incorporate risk response strategies into project plans and implementation.
- **Documentation**
  - Document risk details, strategies, and outcomes for transparency

- Decision-Making Process:
  - Collaborative team discussions and input gathering.
  - Weighing pros and cons with a clear view of project requirements.
  - Consensus-building with occasional voting for efficiency.
- Communication & Clarity:
  - Ensures alignment and understanding across the team, clients, and shadow team.
  - Explains the 'why' and 'how' behind our actions for transparency.

# Reflection

## Situation 2 of 3, Individual Decision Making

*AITA for complaining that I was not allowed in the pool as it was a 'Women only' session.*

Took my kids swimming. Toddler was happy in the baby pool, but the eldest wanted to go in the big pool. I went with her, but was told to get out as I am male. I think it was discrimination, the pool say they're meeting a demand from the public and are being inclusive.

### What's your judgement over the situation?

YA: Yes, the Individual reporting the situation is an Asshole

NA: No, the Individual reporting the situation is Not an Asshole

### How confidence are you in your chosen decision?

1 - completely  
uncertain

2 - uncertain

3 - neutral

4 - certain

5 - completely

# Start With Immersive

Explore our research on daily moral decisions and participate in our immersive scenario simulation. Start the simulation or skip to proceed directly to our Website. Please be aware that these scenarios are designed for research purposes at the Australian National University.

# Survey website

- Current Technology Stack: HTML, CSS, Javascript
- Future development: Database and AI model

### Participant Information Sheet

Please read our Participant Information Sheet for more details about this study. You can access it here: [Participant information sheet](#)

### Participant Consent Form

I have read and understood the Participant Information Sheet you have given me about the research project, and I have had any questions and concerns about the project addressed to my satisfaction. I agree to participate in the project.

Yes

No

Next

- How the output is helping stakeholders
  - Individuals: Better understand the moral choices. Enhancing their moral awareness and decision-making abilities.
  - Researchers: Better understanding of human preferences and attitudes. Data support for research
- How to impact and improve in the future
  - Expanding the scope and sample size of the survey
  - Continuous research and practice

# Q&A
